ANNUAL MEETING OF THE BLAIRMORE ARENA, LIMITED

The third annual meeting of the shareholders and directors of The Blairmore Arena, Limited, was held at the Cosmopolitan hotel on Friday night last and was well attended.

The minutes of last annual meeting were read and approved, and the financial statement for the year ended September 30th was considered.

Although last season's operations were very much hampered by mild weather, yet the report was encouraging in that a small surplus was shown rather than the expected deficit.

Messrs. W. H. Chappell, R. W. H. Pinkney and G. A. Vasse were elected to the position of directors.

A number of applications for the position of ice-maker were received and the matter of choice was left with the directors.

Tony Stella was one of the local aspirants for the honorable position of ice-maker, his experience including that of making ice for some of the Pass cold storage plants. Evidently Mr. Stella hoped to find a market for the Arena ice after it had been used for the season, but gave no intimation as to the proposed disposition of the by-products, chewing gum and tobacco quids.

According to the statement submitted by Secretary J. R. Gresham, a total revenue of \$2,475.00 was taken in last season, and about \$315.00 remained to the Arena's credit in the bank.

The conviction of Peter Smith, former provincial treasurer of Ontario, has been sustained by the appeal court. Peter must serve at least three years in jail and assist in paying off what the province lost through him, namely \$600,000.

SCHOOL BOARD ELECTS A NEW CHAIRMAN

At a meeting of the Blairmore Board of School Trustees, held on Monday night, Mr. L. Dutil was elected chairman, to succeed Mr. A. Hamilton.

Present at the meeting were: Mrs. P. M. Christophers, Messrs. W. H. Chappell, W. A. Beebe and L. Dutil, and Secretary Gresham.

The minutes of last previous regular meeting were approved as read, and the following communication and report was received from Dr. A. H. Baker, of the Department of Soldiers' Re-establishment, who recently conducted a medical survey of the pupils of Blairmore public school:

"Central Alberta Sanatorium, Calgary, Alberta, October 13, 1924.

Mr. J. R. Gresham, Secretary-Treasurer School Board, Blairmore, Alberta.

Dear Sir: Attached you will please find preliminary report on the recent survey in Blairmore school. The detailed report on the individual child is being forwarded to Dr. Olivier.

In connection with this report, abnormal tonsils are those which in the opinion of the specialist are diseased or sufficiently enlarged to have some effect on the child's health, and in practically all cases he reacts should be removed. Tuberculin reacted are those who have reacted to tuberculin. This indicates that these children have already been infected with tuberculosis, although it does not necessarily mean that they are sick at the present time, or that they will ever be sick. Under the weights, plus 10 per cent, means that a child is 10 per cent more than the average range of weight for his age and height, minus 10 per cent, means that he is under weight. Under the remarks column are listed the number of other defects found in the various grades.

I wish to express my appreciation of the co-operation we received from the School Board and teachers of Blairmore in carrying out this work. We are also much indebted to Dr. Olivier for the use of his office for X-Ray work and the examination of noses and throats. The X-Ray pictures have not yet been examined, and in case there is anything of importance discovered on these you will be advised. Dr. Hynes also helped us with some examinations. The dental inspections were done free of charge by Dr. Lillie and Dr. Hoar.

Preliminary report. Grade I.—

Three Pupils—1 normal tonsils, 2 abnormal, 3 non-reactors, 2 defective teeth, 2 vaccinated, plus 10 per cent.

2. Remarks—Teeth not examined 1.

Grade II.—

Nineteen pupils—4 normal tonsils, 13 abnormal, 1 removed; 1 reactor, 18 non-reactors; 12 defective teeth, 5 vaccinated, 4 plus 10 per cent. Remarks—Teeth not examined 1, thyroid 1-1.

Grade III.—

Fourteen pupils—2 normal tonsils, 10 abnormal, 2 removed; 2 reactors, 12 non-reactors; 14 defective teeth, 2 plus 10 per cent. Remarks—Thyroid 1-1, deafness 1, bronchitis and heart murmur 1.

Grade IV.—

Ten pupils—6 normal tonsils, 4 abnormal; 1 reactor, 8 non-reactors; 9 defective teeth, 2 vaccinated, 3 plus 10 per cent. Remarks—Not tested with tuberculin 1.

Grade V.—

Seventeen pupils—5 normal tonsils, 10 abnormal, 2 removed; 2 reactors, 15 non-reactors; 15 defective teeth, 5 vaccinated, 1 plus 10 per cent, 2 minus 10 per cent. Remarks—Mouth breathers 3, oral abscess 2, thyroid 1-1.

Grade VI.—

Sixteen pupils—3 normal tonsils, 8 abnormal, 5 removed; 15 non-reactors, 8 defective teeth, 1 vaccinated, 1 plus 10 per cent. Remarks—Not tested with tuberculin 1, thyroid 4-1, thyroid

ANGLICAN CHURCH

Rev. W. J. Merrick, of Macleod, will conduct services on Sunday the 9th inst. 11 a.m. Matins and Holy Communion.

1-2, nasal disease and bronchitis 1, chitis 1.

Grade VII.—

Seventeen pupils—12 normal tonsils, 4 abnormal, 1 removed; 2 reactors, 15 non-reactors; 14 defective teeth, 9 vaccinated, 2 plus 10 per cent. Remarks—Oral abscess 1, thyroid 2-1, thyroid 1-2, heart murmur 1, mouth breather 1.

Grade VIII.—

Thirteen pupils—7 normal tonsils, 4 abnormal, 2 removed; 4 reactors, 9 non-reactors; 10 defective teeth, 4 vaccinated. Remarks—Thyroid 1-1, thyroid 1-2, bronchitis 2.

Totals—Normal tonsils 40, abnormal 55, removed 13. Reactors 12, non-reactors 95. Defective teeth 84,

vaccinated 28, plus 10 per cent 15, minus 10 per cent 3.

Percentages—Normal tonsils 36.7, abnormal 50.4, removed 11.9. Reactors 11.2, non-reactors 88.8. Defective teeth 77, vaccinated 25.6, plus 10 per cent 13.7, minus 10 per cent 2.7.

Motion by Chappell and Beebe that the report be accepted and request complied with. Carried.

The following accounts were passed for payment—James R. Warner, for kalsomining in west ward school, \$20.00, Blairmore Enterprise \$36.50, Blairmore Pharmacy \$148.85, H. C. James \$6.50, Blairmore Hardware Co. \$55.25, Blairmore Enterprise \$29.00.

Question of night schools came up and secretary was instructed to insert advertisement in The Blairmore Enterprise, asking those desiring of entering upon any of the various subjects to hand in their names to the Secretary-treasurer before November 12, 1924.

The meeting adjourned.

NEW COAL COMMISSION

Appointment of a commission to make investigation of the coal mining industry of the province, in accordance with the decision made at last session of the legislature, is announced by the provincial government.

The members of the commission are H. M. E. Evans, of Edmonton, chairman; R. G. Driman, of Edmonton; and Frank Wheatley, of Blaimore.

Mr. Wheatley is president of the Alberta Federation of Labor and is very well known throughout the province.

ROBBERS ENTER

BELLEVUE PHARMACY

The premises of the Bellevue Pharmacy were entered on Wednesday night of last week and a considerable amount of cash, as well as some jewelry were stolen.

The thief, or thieves, entered through a skylight in the late hours of the night. The safe had evidently been left unlocked, and with the aid of a street light opposite the store, all documents therein were gone over in the hope that something negotiable might be found.

The party, or parties, wore gloves to avoid detection by finger-print specialists, and apparently knew the premises well.

Several small fires had been started, probably to burn the premises to cover up identity. These, however, had burned themselves out without doing much damage. The contents of the safe were left scattered around the floor.

The police are hopeful of capturing the guilty parties.

ALBERTA AMATEUR HOCKEY ASSOCIATION ANNUAL MEET

The annual meeting of the Alberta Amateur Hockey Association was held in Calgary on Saturday last, presided over by Dr. Sandercock, of Calgary.

The election of officers for the ensuing year resulted as follows:
Hon. President—His Honor Lieut-Governor Brett, M.D.

Hon. Vice Presidents—Hector Lang and Hon. George Headley, M.L.A.
President—Dr. Sandercock, of Calgary, re-elected.

Vice President—Mr. L. L. Morgan, of Blaimore, re-elected.

Hon. Secretary-Treasurer—Mr. E. D. Battum, of Calgary, re-elected.
Amateur Governor—Mr. W. H. Chappell, of Blaimore.

Executive Committee—Messrs. H. F. McDonald, of Edmonton; and W. H. Evans, of Canmore.

The financial report was upon motion by Mr. Chappell adopted.

The meeting discussed the proposal to assess gate receipts, etc., to provide additional funds for the maintenance of association work. It was decided that the Secretary-Treasurer of the association would in future attend personally, or have someone to check up the gate receipts at play-off games, in order to avoid disputes regarding percentage payable to the association.

The following proposal was unanimously adopted:

"That all senior clubs be assessed 3 per cent, ladies and intermediate clubs 2½ per cent, and junior clubs 2 per cent of the club share of gate receipts at all league games and that a flat charge of \$1.00 be made to all clubs for exhibition games."

The question of extension of residence privileges coming up, Mr. Chappell stated the facts regarding conditions in mining centres, referring to the fact that the last time there was

GENEROUS GIFTS

The immense value offered by The Family Herald and Weekly Star of Montreal this season is meeting with the success the publishers deserve. Their large calendar for 1925 with the beautiful picture—"The Sale of Old Dobbin," is proving a very popular premium, while the Ten Thousand Dollar Election Contest is a record breaker. For those who raise new clubs of subscribers, there is a catalogue of some very handsome and useful rewards. The Family Herald is securing thousands upon thousands of new subscribers by their generous gifts, added to the super excellence of the paper itself; in fact few homes will be found without that great weekly when Two Dollars will secure so much.

a miners' strike it was called in August and the C.A.H.A. had granted an extension of the residence date to 15th November. This time, after a longer strike, which has only just been settled, in fact some of the miners are not yet back working, therefore if the mining towns were to abide by the rules governing residence they requested that the date be extended to 1st December for this year, this to apply to mining districts only and that in order to protect organized clubs in the other parts of the province that transfers be allowed until 1st December, 1924.

After some discussion, Mr. Chappell and Mr. King put this before the meeting as a motion, and it was unanimously adopted and Dr. Sandercock promised to support the application to the C.A.H.A. and appointed Messrs. Chappell, of Blaimore; Evans, of Canmore; and the secretary as a special committee to frame the official request from the branch to the C.A.H.A. for approval of this resolution.

On motion of Messrs. Morgan and Cruickshanks, by-law 25 re protests was amended to make it clear that both protesting and defending clubs were required to put up the fee of \$25.00, making a total of \$50.00, before protest was dealt with. That the club protesting in future will have the right to decide whether its protest shall be dealt with by its league, in the event of its playing in any league, or by the executive committee of the A.A.H.A., but having made its selection there can be no appeal from the finding of the tribunal selected.

On motion of Messrs. A. P. Van Buran and E. Poulin it was agreed that ladies' hockey teams be accepted into membership by the A.A.H.A., the annual fee being five dollars.

Dr. Sandercock advised the meeting that Dr. Miner, of Alberta Variety, had offered to present a cup for ladies' trophy.

Holiday Greeting Cards

Among the pleasant annual customs prevailing in modern times is the practice and custom of sending out personal greeting cards. These cards many times serve to link the past with the present and rekindle the old spark of affection in those with whom we have in former days held close and friendly communion.

Then, There Is the Other Side—

From the purely personal greeting, the amenities of modern business have extended the custom to the sending of greetings by business concerns to patrons and an exchange between the business houses themselves.

Business men who have for months been enjoying the patronage of residents of the district find it quite the thing to thank their friends for their patronage and wish them the greeting of the season.

Next Comes Our Side—

We have stocked the greatest variety of popular priced Christmas and Personal Greeting Cards ever carried by any country office in Alberta. These cards are all this year's stock of latest designs and they are marked down so that the wage earners can afford to buy nicely printed cards at a fair price. These cards in many instances take the place of presents and are economical to use. Call and look over our samples or phone in and we will call with our samples.

FAVORS USE OF AIRPLANES FOR MINE DEVELOPMENT

Convinced that flying boats will play an increasingly important part in the mining development of Canada, G. C. Mackenzie, general secretary of the Canadian Institute of Mining and Metallurgy, an ardent supporter of experimental aviation in Eastern Canada, spoke to mining men of Vancouver Monday night at a meeting in the Board of Trade auditorium under the auspices of the C.I.M.M.

Condemned first as a wild, harem scarum experiment, the efforts of the Laurentide Aviation Company, in establishing a service from Hallybury to the new Rouyn gold field in northern Quebec, is rendering valuable aid to the district, he said. In fact, when the suggestion of desisting on account of lack of support was made by the flying company a howl of protest went up and operating companies promised the enterprise increased support.

To test out the costs of prospecting with parties sent into the field and transported by canoes and by flying boats, respectively, two expeditions, each under charge of a geologist and with the same equipment, were despatched into the Quebec field this summer, the speaker said.

They spent 110 days in their territories. It was found that if three changes of location were made by the party with the canoes the cost would be about \$200 less than that involved in prospecting with the aid of a plane, but if the number of moves were increased it would not be long before the air party would be much cheaper to operate.

It was further found, the mining man said, that the geologist with the air party had about 35 days more time available for actual research in the field than the geologist with the canoe party.

From his own experience he was able to say that geological formations in the mountainous region could be seen from the air which could never be observed from the level of a lake.

Time saved in carrying high-salaried men was an important factor, the speaker pointed out. Transportation cost for passengers was about \$2.50 per ton mile. It had been found that a distance of 70 miles, ordinarily a trip of about 60 hours, could be done in 40 or 50 minutes by air.

Planes could be called, in lines of regular travel, by a pre-arranged signal consisting of a smoke bomb thrown into a lake or river. Improvement of spirit among men working in lonely camps and who, with an air service, were supplied with mail and had the certainty of speedy conveyance to hospital in case of injury was another factor referred to.

Dr. W. L. Uglov of the University of B.C. presided and paid tribute to the service contributed to the mining industry in Canada by Mr. Mackenzie.—Vancouver Sun.

AMERICAN COAL FOR MARITIME PROVINCES

American coal is pouring into the Maritime Provinces, especially into the port of St. John. A St. John paper says: "The steamer Nordhavet arrived in port yesterday with more than 5000 tons of coal from Norfolk, Virginia, for the Atlantic Sugar Refineries. From reports received here there are many cargoes of coal on the way from American ports to St. John for local dealers." This is certainly a fine state of affairs with the coal miners of Pictou County walking the streets unable to find more than one and two days work a week.

The following joke was told at Premier King at a Fernie banquet last week. During the time of the recent Imperial conference in London, some of the delegates to that conference paid a visit to the great zoological gardens. One of the party, seeing a strange animal with a long neck, enquired: "And where is he a native of?" The answer came: "A giraffe, a native of Africa," whereupon the inquisitive one retorted: "Good God, and my sister married one of them natives three weeks ago."

SALE OF EXTRACTS LICENSED

Retail sale of extracts and essences in Alberta of more than 2½ per cent proof spirits will now be under special license, save certain extracts which are prohibited entirely except by government vendors. The licenses will be issued by the Liquor Control Board to such persons as are approved by them. The license fee will be fifty cents.

The following extracts are prohibited altogether, save through government vendors:

Preparations prepared according to formula of the British Pharmacopoeia—

Any combination of alcohol with ether, tincture of orange, compound tincture of cardamoms, compound tincture of lavender, tincture of lemon, tincture of ginger, orange wine, iron wine, wine of iron citrate.

Preparations according to the formula of the United States Pharmacopoeia—

Any combination of alcohol with ether, tincture of bitter orange peel, tincture of sweet orange peel, compound tincture of cardamom, tincture of cardamom, tincture of lemon peel, tincture of ginger, spirit of juniper, aromatic elixer.

Sale of extracts by licensed retailers must be in containers of not more than five ounces.

The new regulations concerning extracts are contained in an order published in the issue of the Alberta Gazette under date of November 1.

SAVINGS BANK

PROFITS INCREASE

Increase in profits, depositors' accounts and value of investments in stock and bonds are recorded in the annual financial statement of the Manitoba Provincial Savings bank. The profits for the last year of operation, ending August 31, totalled \$51,864.44; deposits, including accrued interest, amounted to \$10,051,093.35; and the number of depositors' accounts reached a peak of 26,588. Last year this institution had on deposit \$7,399,941.42, while the number of accounts was 18,515, and profits amounted to \$29,181.80.

A crocus was picked near Pincher Creek on Sunday, October 26th.

Better Rubber Footwear at the Regular Price

If RHINO Rubber Footwear weren't better—if it didn't wear longer—we would not support the iron-clad guarantee that goes with every pair.

These facts hold good with all RHINO Rubbers. Note the Protector flap on rubber shoe illustrated. It is an exclusive, patented RHINO feature. It effectively

prevents dirt, mud, snow or moisture from getting inside.

This footwear is made from RHINO RUBBER—the toughest and most wear-resisting that Science has yet discovered—which will wear up to twice as long as ordinary rubber. Insist on RHINO Footwear.

CANADA REPLACES U.S.

The United States is no longer the chief exporter of wheat to the United Kingdom. The largest supplies of this grain to the British Isles this month were from Canada, with the United States second and Argentina a close third. It is only in barley and oats that the United States has retained its hold on British imports.

BETTER OUTLOOK IN WEST

Hon. R. G. Brett, lieutenant-governor of Alberta, who returned last week over the Canadian National Lines from Toronto, stated in an interview at the Fort Garry hotel, Winnipeg, that he had found the people throughout the West developing a very optimistic outlook and that a better feeling is prevailing generally. He considers that there is good reason for optimism.

Mr. A. Cameron returned to Coleman last week from a several months' visit to his fruit farm near Wyndell, B.C. Mr. Cameron brought down a quantity of second-growth raspberries from his farm.

MANY EUROPEANS

LIKELY TO EMIGRATE

Europeans generally are looking to Canada and there are great possibilities for wide-spread immigration of good-class settlers in the near future, states W. G. M. Shepherd, manufacturer's agent of Montreal, who is on a tour of the West after an extensive visit in the Old Country. Mr. Shepherd is strongly in favor of community settlements.

Exportable Surplus Estimated

In a cable received at Ottawa from Rome recently, the international institute of agriculture forecasts the exportable surplus of wheat of the exporting countries for the grain year 1924-25 as follows:

Canada, 204,000,000; United States, 244,000,000 bushels; India, 38,600,000 bushels; Argentina and Australia, 310,000 bushels.

After eagerly reading the harrowing details of the Franks murder case in Chicago, two university students in Sicily have imitated the crime in practically every detail.

The War To End War

How often during the fateful years 1914 to 1918, while the colossal struggle between Germany and the Allies was in progress was heard the expression that this was a war to end war. This idea was embodied in the appeals made by all Allied governments to their people to loyally and even cheerfully bear the heavy burdens being imposed upon them and to endure the terrible sacrifices they were called upon to make. Thousands of husbands and fathers fought and suffered and died declaring it was worth while if by such sacrifice the world of mankind was to be forever freed from the horrors of war. "Never again" was the watchword of these heroic souls as dying they felt assured their descendants would never be called upon to face what they had endured.

But although the bugles sounded "Cease fire" along the great battle line on November 11, 1918, the war to end war was not then concluded. It is not yet concluded. Wars are even now in progress in different parts of the world, more significant than these local struggles is the fact that, even with the elimination of Russia, the European Allies in the Great War have a larger number of men under arms today than Germany, Austria-Hungary, Turkey and Bulgaria had when the Great War began in 1914.

Today the peace strength of France, Italy, Britain, Poland, Rumania, Belgium, Czechoslovakia and Yugoslavia is 1,937,000 men, while in 1914 the peace strength of Germany, Austria-Hungary, Bulgaria and Turkey was 1,504,599, or nearly half a million less.

The financial burden imposed on these war-impoised countries in maintaining nearly two million men in military readiness is an appalling one. Important advances have been made in reduction in naval armaments, and it is probable that more will follow, but as yet the even greater menace to the peace of the world constituted by huge standing armies exists.

The whole root of mankind must reject, therefore, that the League of Nations is leaving no stone unturned to bring about, first, a binding agreement among all nations calculated to make war almost impossible, of outbreak and banish it from among the calculations which today every European country has to consider, and, secondly, to bring about an early and drastic reduction in all standing armies and armaments along lines which are proving effective in the reduction of naval and naval expenditures.

Some people still scoff at the League of Nations. They criticize and condemn it because it has not accomplished more. Yet when its achievements in the six years which have elapsed since the Covenant was drafted and signed are studied, the amazing thing is not what it has failed to do in that short space of time, but that it has accomplished so much, and has saved such a large measure of confidence among the nations of the world. The influence of the League of Nations is the most powerful factor in international affairs today.

Beneficial and effective in so many ways as the work of the League has proven to be, its recent achievement in drafting a protocol of peace which received the unanimous approval of the representatives of every nation now a member of the League, and the equally unanimous approval given by such representatives to the plan for a great world conference on disarmament, and their united demand upon all Governments to proceed with the least possible delay in giving individual Parliamentary approval to the peace protocol, is easily the most important and far-reaching effort of the League and one that holds promise of heralding a new era in world history.

The effect of the concord displayed at Geneva is seen in the speeches delivered by two Generals who were active participants in the Great War, one a German, the other a Frenchman. General Verlaux (French) and General Von Schoenbach (German) united in stating to the World Peace Congress at Berlin that "only complete general disarmament can save the world." General Verlaux declared that "little armies are as dangerous as big ones," and General Von Schoenbach said that most generals of the old regime knew that their theories were wrong, but had not the courage to confess it. He promised to support the movement looking to the abandonment of military service.

The war to end war is, therefore, moving forward to victory. This really glorious war is not yet won. To achieve complete victory calls for the enlistment of every right-thinking man and woman to bring the last ounce of pressure to bear on Government in each and every country in order that strong national support for the League of Nations plan for universal disarmament will be forthcoming.

A Fertile Southern Area
The Hutterites residing in the southern part of the province are reaping 40 bushels an acre on stubble, and 60 bushels an acre on summer-fallow. That the recovery of an industrious and enterprising people, whose religion and political views created an amount of opposition during the war. No person can question their worth as tillers of the soil.—Calgary Alberta.

Canada's Envious Position
"I confidently predict that the next ten years will be the most prosperous in Canada's history," declared the Hon. P. C. Larkin, High Commissioner for Canada in London. "Without doubt Canada is in a far better position today than any other country in the world."

Germany Creeping Up
Lloyd's new register states that in 1923, although many new ships were built, the carrying capacity of the merchant fleet of the world decreased almost 1,143,000 tons. The merchant marine of Germany and that of Japan are forcing ahead relatively faster than those of their rivals. That of the United States is declining rapidly. Although still second, Germany is pressing the United States.

Road Reserved For Motors
King Victor Emmanuel, of Italy, opened what is believed to be the first road in the world built and reserved exclusively for automobile traffic. The road extends for thirty miles from Milan to the Lake of Varese and is to be continued later to Lakes Maggiore and Como.

Hope For Cancer Cure

Toronto May Achieve Another Triumph in a Curative Treatment. Sir David Ferrier, a well known practicing physician, formerly consulting physician to King's College Hospital, and to the National Hospital for the Paralyzed and Epileptic, in an address to the Hospital Medical School, London, on the problem of a cure for cancer, referred to Dr. E. G. Baileys' discovery of the "salutary treatment for diabetes and said that hopes had been raised that Toronto would achieve another magnificent triumph in the discovery of a curative cancer treatment. However, British hopes, in the latter regard, have not yet been fulfilled.

The medical profession need not despair, Sir David said, about a cancer cure being discovered, for some time, but the members of the profession should not be over-enthusiastic concerning investigations now being carried on in connection with a possible cure.

Sir Humphrey Rolleston, president of the Royal College of Physicians, of London, urged that there should be one physician to every 1,000 people. He regretted that the entrance to the medical profession had fallen off considerably of late. This was especially the case with regard to women entering the profession.

Take Your Corns Off In Hot Foot Bath

The hot water removal of corns is the surest, quickest way. It takes only a minute to apply a covering of Putnam's Corn Extractor, and it soon softens the corn or callous so that the hot foot bath shells them right off. Get Putnam's Corn Extractor. It's a wonderful antiseptic corn softener. It costs little and is absolutely sure to give you the desired results for corns, thickened foot lumps or sore callouses.

PUTNAM'S Corn Extractor

India's Next Viceroy
Head of Mohammedans Asks For Member of Royal Family

The forthcoming visit of Prince and Princess Arthur of Connaught to India has brought the suggestion that the vice-royalty of that Empire may be offered to the Prince. India has been asking for some time that a member of the Royal family should be sent to India as the next viceroy, and the Aga-Khan, head of the Mohammedans, has stated that such an appointment would lift the viceroy out of party politics. The Duke of York has been asked to accept, but his appointment is unlikely.

WORK WORN PEOPLE

Find Renewed Health By Improving Their Blood
If you feel run-down, it means that your blood is thin and watery, that your vitality is low. Your feet are easily chilled. You do not sleep well and you are tired when you rise in the morning. You find no pleasure in your meals and are listless and dispirited at your work. You have no energy to enjoy work.

Thousands of men are run-down by anxieties of work. Thousands of women are broken down by their household toil, with its tireless and aching backs; thousands of girls are pale, listless and without attraction. If all means this, it is because of thin, watery blood, vitally run-down, anaemic, poor appetite, palpitating heart. Do not submit to this. Get new blood and with it new vitality. There is no difference between the Williams' Pink Pills build up and enrich the blood, which brings with it new health and vitality. The man, woman or girl who takes Dr. Williams' Pink Pills is never run-down. Their friends notice how they have, and how much they enjoy life.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Supreme In Cheese

Canadian Product Has Attained A High Degree of Popularity
"Cheese—And Ways to Serve It," is the title of a beautifully illustrated booklet which contains nearly a hundred tested recipes for tempting cheese dishes. This book can be obtained absolutely free by writing to the Kraft-MacLaren Cheese Co., Limited, Montreal. Cut out the coupon appearing in advertisement inserted elsewhere in this issue, write your name and address plainly, and the booklet will be mailed to you at once. Cheese is nature's complete food in its most tempting form. Kraft cheese is an appetizing, satisfying and most nourishing food, and can be served in scores of tempting dishes.

Okanagan Fruit
The total number of cars of fruit and vegetables shipped out of the Okanagan Valley during the period June 1st to August 31st, was 792, as against 636 during the same period a year ago.

Minard's Liniment For Aches and Pains
W. N. W. 1546

Britain's First Aerial Battleship

Weights Nine Tons and Travels Two Miles Per Minute

The world's largest and most powerful, single-engined aeroplane—Britain's first aerial battleship—made its trial flight from Brough Aerodrome recently. The pilot, Flight-Lieutenant Paul Bulman, one of the most distinguished pilots of the Royal Air Force, looked like a speck by the side of this behemoth of the skies, which can travel at two miles a minute for more than 1,000 miles without having to replenish its fuel.

It is a marvellous machine, the last word in aeronautical design, and includes features which are kept secret. It is intended to play a leading part in the air defence of the British Islands, and is officially designated a coastal defence plane.

The machine, known as the "Cubaroo," was specially built by the Blackburn Aeroplane Company to take the 1,000 h.p. Napier Cub engine, the most powerful aero engine yet built and successfully flown.

The machine, which is the "Cubaroo," is more than one and one-half times the size of a billiard table. The full plane alone, which is of the bi-plane type, is as large as an average-sized aeroplane.

The gross weight of the machine exceeds nine tons. From wing tip to wing tip it measures 83 feet, its length is 54 feet, and at its highest point it is 19 feet 6 inches high.

It is planned as a three-seater, and has sufficient room in the main cockpit for two pilots to sit side by side. A staircase leads from the spacious cabin to the pilot's cockpit, which is a second storey from the cabin to a gun turret, behind the wings. All the vulnerable parts of the machine are well protected.

It was not, of course, equipped for action, but when in action it will be able to carry more than three tons of bombs or torpedoes, tucked beneath its wings or slung below the fuselage.

The wings of the giant can be folded back flush against the sides of the fuselage, so that the machine can be housed in the smallest possible space.

Air experts from all parts of the world gathered to see Flight-Lieutenant Bulman handle "Cubaroo" on its test flight recently.

"The flight lasted about half an hour, and the pilot was enthusiastic about the behavior of the machine," "She is wonderful," he told me. "She responded with absolute ease to every movement."

Japanese Women in Canada

Immigration From Japan Appears To Be On The Increase

The immigration of Japanese women, which has been the subject of much discussion in the Canadian Japanese Governments in connection with the interpretation of the "gentlemen's agreement," appears to again be on the increase, according to statistics published by the Department of Immigration. During the last fiscal year, 233 Japanese women came to Canada, while for the first five months of the present fiscal year, the number was 139, or at the rate of about 280 for a full year.

The average number of Japanese women immigrants into Canada during the last six years, however, was 231.

The number of Japanese adults entering the Dominion during the last five months was 101. These were divided as follows:

Farmers; 49; laborers, 27; mechanics; 2; traders; 13; and not classified, 10. During the last fiscal year the number of Japanese immigrants other than women was 215. The present "gentlemen's agreement," which limits the number of farmer and laborer emigrants at 150 annually, came into effect in August of last year.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their heart for escape as from a tyrant. Never do they know when an attack may come and they know that to struggle is useless. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Woman's Rights in Japan
Advocates of women's rights in Japan are advancing, as proof of the women's increasing interest in political affairs, the fact that of 14,000 persons who occupied seats in the national galleries of the two houses in the Diet during its extraordinary session, in August, 4,000 were women. No previous session of the Diet has had so many women visitors.

Not Worth the Risk
"I know that I am not good enough for you," he told her. "I don't intend to give you a chance to prove it," she replied.

The crater of Katmai volcano, which is now a part of the United States national monument, has a circumference of 8.14 miles.

Scientists Make Strange Discovery

Expedition Into Olympic Mountains Find Worms That Live In Ice

A species of worm that lives only in ice and cannot withstand even the heat of a human hand, has been found and photographed by a scientific expedition that recently went into the Olympic mountains.

The ice on Doodwell-Rixon Pass in the Olympics was found literally alive with these worms. They are black, thin and about half an inch long. When the sun is out they crawl into the interior of the ice where the temperature is lower. Scientists with the party said that so far as they knew these worms never had been found before in the United States.

While the worms were photographed, it was impossible to get any of them out of the mountains alive. When the ice surrounding them begins to melt, they die immediately. What they live on is still a mystery.

Sees End Of Hertzog Government

Former Premier Smuts of South Africa Confident That Change Is Coming

Former Premier J. C. Smuts, of South Africa, in a speech at Marlburg, according to the London Daily Telegraph's Cape Town correspondent, referred to recent speeches by supporters of the Hertzog Government suggesting that the nationalists would be in power in South Africa for all time and he prophesied that the present Government would be out sooner than the South African party, of which Mr. Smuts is leader, really desired.

The former premier said that personally he was anxious that the country should have full opportunity of putting the promises of the nationalists, as well as their statecraft, to a practical test. He added that his worst fears as to the Hertzog Government were already being realized.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with cod liver oil and cod liver oil, but for the mature who suffer from pains and aches, but it is also good for the use on sick cattle. There should always be a bottle of it in the house.

Images Date Back To 500 B.C.
In Ireland they find more of the mysterious porcelain images of ages which have been dug up over there, 50 found since year 1789, in widely scattered places.

Chinese scholars claim these porcelain images are of Chinese origin. Including their peculiar hieroglyphics, the images date back to the year 500 B.C. How did they get to Ireland? Did Chinese explorers travel that far. The ancient history of China, as it comes to light, will be fascinating.

The most expensive chair in the world—made of solid silver and worth about \$60,000—belongs to the pope.

Future Advertising

Anglo-Saxon Nations Will Let World Know Their Stand For Constructive Policy

What Lord Waring said recently in London concerning the great international advertising convention struck a keynote which is prophetic and inspiring in its promise. "I believe," he said, "that the time will come when England and America will advertise throughout the world that they stand together for all time for honesty, truth and service; for a policy which will lead the world to realize that every member of every nation is interrelated, that strenuous efforts and friendly rivalry mean prosperity and are constructive, and that war is suicidal, negative and destructive." When that day dawns, the problems of the nations will largely be solved automatically.—Christian Science Monitor.

Was Troubled With Her Heart and Nerves For Years

Mrs. James Rutledge, Nappan Station, N. S., writes:—"I think it my duty to tell you about what Milburn's Heart and Nerve Pills have done for me."

For years I was troubled with my heart and nerves, and was so bad, at times, I would faint away and fall right down where I was sitting, standing, and after one of these attacks I would sometimes be in bed for weeks at a time and feeling that life was not worth living.

I finally started the use of **MILBURN'S HEART AND NERVE PILLS**

and after using the first box I saw I was getting relief, and after using them for a short time I found that they did for me what no other remedy had ever done.

Milburn's H. & N. Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

German Car Worries Pedestrians
Automobile manufacturers in Germany have great affection for freak designs in cars. One of the latest monstrosities to appear on the streets of Berlin is a car with the engine in the rear, and so constructed that the front end of the car bears the appearance of the rear end of an ordinary car. The vehicle appears to be running the wrong end first.

Rheumatism

Apply Minard's to the aching spot and get quick relief. The remedy your grandmother used.

NIGHT SCHOOL

Notice is hereby given that Night Classes in the following subjects, or in any other technical subject, are available if a class can be formed:
English and Mathematics.

Mining.
Motor Mechanics.
Electrical Engineering.
Dressmaking and Millinery.

The course in each case consists of 30 lessons and will be given to a class of 12 at a cost of \$5.00 each, or to a class of 8 for \$3.00 each.

It is expected that Mr. G. H. Thompson will take charge of the electrical course.

In the Millinery and Dressmaking course, one hat and one gown will be completed during the course by each pupil.

Persons interested will kindly hand in their names to the Secretary of the School Board, before November 15th, and if a sufficient number of applications are received, classes will be formed.

KILLED IN AUTO

CRASH NEAR ELKO

FERNIE, B.C., Nov. 4.—James Barker Fisher, ex-Corporal of the 113th Unit, 85th overseas brigade in the Great War, is dead, and Amel Nelson, of Innisfree, Alberta, is in the hospital here suffering from injuries as the result of an automobile accident on the "Crows' Nest Pass Highway" just west of Elko last evening. The third occupant of the car escaped with only minor bruises.

From the meagre details available here, it appears that the three men left Fernie by automobile, going west yesterday and reached Elko safely. Leaving Elko the highway takes a very sharp turn to the right and then goes down the side of the mountain. Whether faulty steering gear or lack of knowledge of the road caused the accident, is unknown, but the automobile failed to make the turn and plunged over a three hundred foot embankment and was totally wrecked when it crashed into some trees on the mountain side.

Chicken shooting closed on Friday last.

The town of Coleman is seriously considering the inauguration of an electric fire alarm system.

Mrs. Owen Morgan is home on a visit to her mother, Mrs. W. O. Evans.

Latest round-figure results of the returns from Tuesday's U.S. elections give Coolidge 15,000,000, as against Davis' 3,000,000 and La Follette's 4,000,000.

A true bill for manslaughter has been brought in by the grand jury against Leonard Reid, son of Sir W. D. Reid, in Newfoundland. Reid was driving a car on the Topsail Road, near St. John's, when an accident occurred in which four persons were killed.

In the case of Eddie Berger, charged with making a false declaration, the jury at Lethbridge returned a verdict of guilty, after being out 55 minutes, and recommended leniency. Eddie is already serving a sentence for breach of the Liquor Control Act.

Be a booster for your home town. If you let people know of the great opportunities your town offers, they will sit up and take notice and finally see that you are right. There is no town, however small, but has some advantages. Look at the natural advantages of your home town, think how they should be utilized successfully. When towns look good to a stranger you can rest assured that your boasting has been effectual.

OUR LATEST HUNTING STORY.

If there is anything I do like it is hunting. I hunted for three hours last night for my collar button. One day last week I took my gun and went out to practice. I hit the bull's eye first time, but it cost me twenty dollars—I had to pay for the bull. The best luck I ever had hunting was one time in Texas. I had been hunting all day without seeing a thing to shoot at, I sat down on the bank of the river to rest. Pretty soon I heard a noise. I looked up the river and saw about 600 ducks. I cocked my gun and took aim at the ducks. Just as I was going to pull the trigger, I heard another noise down the river and saw 5000 geese. I thought I would rather have the geese than the ducks. I took aim at the geese and I was just ready to shoot when I heard another noise behind me. I looked around and not over three feet away I saw a great big rattlesnake, with its mouth open ready to bite. I thought the best thing to do was to shoot the snake. I cocked both barrels and took aim at the snake. I pulled the triggers and let go both barrels. The gun busted. The right hand barrel flew up the river and killed the 5000 geese, the ramrod went down the snake's throat and choked it to death, the gun stock flew back and knocked me over in the river and I came out with my boots full of fish.

Molson's Bank has been absorbed by the Bank of Montreal.

A. B. Cook, of Taber, has been appointed official hockey referee for this winter and will make his headquarters in Calgary.

Victims of the Kettle Valley train disaster, in which Peter Verogin, king of the Doukhobor colonies, Mr. McKie, M.L.A. for Grand Forks, and eight other persons were killed and a score injured, are yet unable to state as to the cause of the disaster. A girl victim, now in hospital, states that she could identify the individual, who she claims is an Assyrian. She promised to point him out to the police.

Natural Resources And The War Debt

The problem of how to pay off Canada's great war debt of two billions of dollars is one of such tremendous importance to every Canadian that it demands, and has for some time demanded, unrelenting serious consideration by all governments, institutions, corporations and societies having the welfare of the Dominion and its people at heart. It is not the Federal Government alone which should show concern over the problem, but each Provincial and municipal governing body as well, because so long as the dead weight of our war debt rests on this country, with the resultant necessity of imposing heavy Federal taxes, all other Governments are going to find themselves in financial difficulties.

Amazing it is, therefore, to find so little serious thought given and practical action taken, to find a solution of the problem. Because of its very magnitude and enormous difficulty the Federal Government and Parliament appear to be reluctant to touch it, with the result that while Great Britain and the United States are steadily and even rapidly paying off their war debts, Canada is marking time, and each succeeding year sees the Dominion no better off and with the sign of any radical lessening of the taxation burden in the immediate future, on all sides the statement is made that it is this heavy taxation which is throttling business and hampering industry and general national development.

Governments and people recognize the situation, but all seem loth to attempt a remedy. On the one hand people are demanding a lowering of taxation. Some want the tariff further reduced; others point out that Canada's high income tax as compared with the United States schedule is driving capital out of the channels of productive industry into the absolutely safe but less profitable form of investment in Government Bonds; the general public are insistent that postage rates be reduced to the pre-war figure and freight rates lowered.

But how, asks the Government, can the revenue from customs be further reduced, less collected in income taxes, one-third cut off the postage rates, and the deficit on the Canadian National railways increased through lower freight rates, and at the same time enable the Finance Minister to pay interest charges on the public debt and maintain the necessary public services, not to mention making a start at paying off the principal sum of the war debt? There is the problem. Some argue that a reduction in tariff, freight and postal rates would so stimulate business that increased importations, railway traffic and postal transactions would not only offset any loss of revenue through lower rates, but would actually lead to increase in revenue because of the larger volume of business handled. This, however, is a moot question, and customs, postal and railway experts apparently hold the contrary view, and say that increased volume of business would not make up for the loss sustained through lower rates and certainly would not provide any increase in net revenue.

If present rates of taxation cannot be lowered and are absolutely necessary to maintain public services and meet the interest charges on the national debt, it is even more certain that no additional taxation can be imposed in order to pay off some portion of the principal sum of that debt each year.

So it would appear that Canada had reached a condition of stalemate. Such a condition means stagnation, an end to all progress, and when a nation, like the individual, fails to make progress and grow, it starts to slip backward. There is no such thing as standing still in the life of a nation. It is either going forward or slipping backward.

It is impossible to contemplate a young nation of intelligent, vigorous people like Canada, with its enormous wealth of natural resources and God-given opportunities, going backward. On the contrary it should be leaping forward. At the moment, however, it is tied-hand and foot. Some steps must be taken to cut the knots.

If renewed life cannot be put into the industrial, commercial and productive enterprises of Canada through a lowering of taxation in the form of customs tariffs, freight rates, postal rates, etc., and if we cannot lift the dead weight of the war debt by carrying even more taxation for a period, then Governments must devise some other measures.

It is the duty of all citizens to assist Governments in their task, and to offer constructive criticism and suggestions in regard to the proper solution of national problems. The writer of this article, therefore, suggests that, all other methods having proved ineffective to solve our debt and taxation problems, Federal and Provincial Governments should unite their forces and inaugurate an energetic nation-wide work of development of the natural resources of Canada, thus providing an enormous field for employment of labor, traffic for our railways, business for our industries and commercial houses, and profitable utilization of available capital.

Development for use of Canada's natural resources is the instrument which unquestionably will cut the knots which hamper the Dominion's progress, and the production of wealth through such development is not only the surest, but apparently the only way in which we can ever hope to pay off our war debt.

Saskatchewan Butter For Old Country

The Saskatchewan Co-operative Creamery Company has again commenced shipping butter to the United Kingdom, and during September several cars left for Montreal destined for London and Glasgow. Other cars from Moose Jaw went to Liverpool and London.

Most things are governed by the law of supply and demand, but making mistakes isn't.

Western Horses For Russia

News is received from an authoritative source that one thousand Western Canadian range horses have been purchased by representatives of the Soviet Government and will be shipped forthwith to Ukraine for army use. Most of the horses were purchased in Alberta.

Boarding-house patrons are apt to have liver complaints when it is served seven times a week.

Future Of Grain

Growing In Canada

Says Russia, Will Never Rival This Country As A Wheat Exporter
Russia will never again be Canada's rival as an exporter of wheat, according to the very definite statement of L. W. Lytle, Professor of Geography at London, England, University, in a contribution to the London Times. He believes that grain growing in future lies with the Canadian farmer. Russia cannot properly supply its own needs. Pre-war export of wheat was purely artificial, drawn not from a natural surplus but from the needs of a very poor and ignorant peasantry.

"DIAMOND DYES"

COLOR THINGS NEW

Beautiful home dyeing and tinting is guaranteed with "Diamond Dyes." Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new. Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Combination That Will Prevent Future Wars

League Must Have Co-operation Of People Of All Nations

Not long ago Lord Grey said that when he was asked, "Do you really think the League of Nations will avoid war?" he answered, "Do I think a spade will dig a certain piece of ground?" The parallel is apt, the Winnipeg Tribune says. No spade will dig a piece of ground unless it is in the hands of a capable and willing worker. And no League of Nations will avoid war unless it is combined with the whole-hearted co-operation and the good-will of the people of the nations. The League is the spade, and the world is the worker.

Was Troubled With Her Heart and Nerves For Years

Mrs. James Rutledge, Nappan Station, N. S., writes: "I think it my duty to tell you about what Milburn's Heart and Nerve Pills have done for me."

For years I was troubled with my heart and nerves and was so bad, at times, I would faint away and lie right down where I was sitting or standing, and after one of these attacks I would scarcely be in bed for weeks at a time and feeling that life was not worth living.

MILBURN'S HEART AND NERVE PILLS

and after using the first box I saw I was getting relief, and after using them for a short time I found that they did for me what no other remedy had ever done."

Milburn's H. & N. Pills are for sale at all druggists and dealers; put up only by The J. Milburn Co., Limited, Toronto, Ont.

A Unique Contest

Alberta Government Telephone System Management Awards Prizes

For the past few years the Alberta Government telephone system management has conducted a unique contest among the various branches of the system. Prizes are given for the best branch office with regard to general appearance, grounds, improvements and advertising matter. This year the contest was extremely keen, there being 16 branch offices in the contest after the elimination contests had been held. Only 12 points separated the first prize winner from the sixth. The first prize winner was Red Deer, with Sedgewick second. Medicine Hat won the interior prize, and Stettin the exterior prize.

Collected Walking Sticks

There is some speculation as to what Queen Alexandra will do with a collection of the late King Edward's walking sticks, when he returns to Marlborough House. A large rack contains the favorite canes used by the King, which typify the story of the walking stick in the last century. He was rarely seen without one, and always brought back a few from his many visits abroad.

Population of Geneva, Switzerland, is 900,000.

Gold was probably the first metal to be used by man.

Milburn's Liniment For Colds

Russia's Oil Fields

Not Being Developed

Riches of Baku Going to Waste Under Soviet Rule
No part of Russia seems to possess more attractions for the capitalists and business men than the great Baku oil fields on the Caspian Sea. If properly developed these wells are capable of producing sufficient gasoline, kerosene, lubricating oil, vasoline and by-products to keep the entire world supplied, it is said. But in their present state the fields present a melancholy picture. Only a small percentage of them are in actual operation. The great wooden derricks and the pumps, compressors and drills on the remaining wells are fast falling into decay. It is as if a great storm had suddenly visited a primeval forest, stripping the trees of their limbs and roots, and leaving ruin and desolation in its wake.

The stagnation is due to Soviet Russia's inactivity in modern machinery and technical skill to develop the oil fields, which were taken over by the state soon after the 1918 revolution.

An Interesting Exhibit

Workroom of James Watt May Be Transferred to London Museum

The garret in Heathfield Hall, Handsworth, England, in which James Watt, the man who did so much to develop the steam engine, conducted his experiments, may find its way to South Kensington Museum. Negotiations are now proceeding to this end.

Watt first came to Birmingham about 1768. He died in 1819. The room in which he worked was locked for many years. His tools, benches, even the leather apron in which he worked, and which hangs in the same spot in which he put it, have been undisturbed.

The estate is being developed by a building syndicate, and if the negotiations are successful the room will be transferred bodily to London.

Mothers can easily know when their children are troubled with worms, as they lose their "time in applying a reliable remedy—Mother Graves' Worm Expeller.

Reserve Right To Decide About War

Nations Have This Privilege Under Covenant of League

If one thing is plain in the Covenant of the League it is that every nation reserves its right to decide for itself, when the circumstances arise, whether or not it will engage in war, and how its forces shall be employed. Economic sanctions are specified and may be applied automatically, but military sanctions are deliberately left to the "recommendation" of the council and the decision of the several states. By pledging ourselves in advance to any form of military or naval action, for the enforcement either of an economic blockade or of an arbitral award, we should definitely go beyond anything stipulated in the covenant—Manchester Guardian.

Sleeping Sickness Is West African Disease

Quite Different From Type That Has Spread Around World

True sleeping sickness is a peculiar disease of West Africa, and Encephalitis lethargica, which was first recognized in 1917, and has spread round the world, has no connection with it. The cause of the new sleeping sickness is unknown. It appears to be slightly infectious, and is not always marked by profound stupor or coma, but sometimes shows sleeplessness, delirium and excitement. From 20 to 40 per cent. of the cases result in death. With 535 cases in 1919 and 2,468 in the first half of 1924, England appears to be having an epidemic this year.

New Equerry For Prince

When the Prince of Wales returns to England he is to have a new equerry in the person of Lord William Scott, second son of the Duke of Buccleuch, and who, born 25 years ago, is in the 19th Hussars, and belongs to a family that has been honored with Royal friendship always. His father is cousin of Lord Claud Hamilton, so long an equerry of the Prince, and his mother is a cousin of Viscount Lascelles.

How Vancouver Grows

The population of Greater Vancouver in 1911, as reported in the government census of that date, was 40,460. The population this year, as reported in the directory recently published, is 247,137.

And many a man seems to have a clear head because there is absolutely nothing in it.

Cheese An All-Round Food

But It Is Sometimes Misunderstood Through Lack of Knowledge

Cheese is probably the oldest manufactured food we have. It is mentioned several times in the Bible and it is certain that the art of making it was known long before the birth of Christ. While it is one of the oldest foods, it is also one of the most misunderstood, even though there are many people who think they know all about cheese.

People believe a great many foolish things about cheese, one of them being that it does not agree with them; that it is hard to digest. Government tests and hundreds of doctors and dietitians have proved time and again that this is not the case. Cheese should be eaten with other foods, the same as you eat meat, for it is a perfect alternate for meat; the food properties are almost the same.

But please don't cheese but eat it as you would any other highly nourishing food. Here is a recipe that has been tried and found very good.

Baked Cheese Omelet—1 cup stale bread crumbs; 1 teaspoon baking soda; 2 eggs beaten light; 1 cup grated Kraft Canadian cheese; 1 pint milk; 1 teaspoon hot water; 1/4 teaspoon salt; 1 tablespoon butter. Soak bread crumbs in milk to which has been added soda dissolved in hot water. Add eggs, salt, dash cayenne, grated cheese and melted butter. Turn into greased baking dish and place in very hot oven. Serve immediately when it is puffed and golden brown.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving, medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

High Altitude Flavors Tea

Elevation at Which Plant is Grown Determines Quality

"Let me have a pot of orange pekoe tea." How often we hear this expression in restaurants and tearooms. Yet, if you asked, "What is orange pekoe?" the answer would invariably be, "I don't know, but I do know it is supposed to be good tea. Orange pekoe is simply the name of the leaf and the distinguishing mark of the size of the leaf. You may have good, bad or indifferent orange pekoe tea. Goodness of the leaf is judged by the flavor, which depends upon two things, the elevation at which the plant is grown and the care exercised in the manufacture of the tea. The higher the elevation of the tea garden the richer the leaf is in essential oil, which constitutes its flavor."

The government-conducted lottery of Cuba is said to render some \$4,000,000 annual profit to the national treasury.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

TORIES WILL HAVE 400 MEMBERS IN THE NEW HOUSE

London.—The people of Great Britain have put a crushing end to their first experiment with a Labor Government by returning the Conservative party to power in parliament, with one of the strongest majorities recorded during the last century.

In this sweeping political change, the Liberal party has sunk to the weakest position it has experienced since the realignment of British political parties more than ninety years ago, at the time of the Reform Bill.

The Conservatives will have more than 400 members out of a total membership of 615 in the new House of Commons. That is the startling outcome of the third appeal to the country within two years.

The London press which, it will be recalled, with a single exception, opposed the party that has just suffered defeat, attributes the overwhelming Conservative victory to John Bull's instinctive dread of Bolshevism in any form. The papers declare that the people are not hostile to genuine trade union laborism, but are alarmed and resentful over the Socialistic and Communistic tendencies of the Labor party, and are determined to down them.

There are indications, however, that the satisfaction over the country's outspoken repudiation of these tendencies is mingled with some fear of a dangerous reaction. Even the Conservative papers show anxiety lest the great power bestowed on their party should be unwisely used.

Shipment From E.P. Ranch

Prize Beef Cattle From Royal Ranch Cross the Border at Portal

North Portal.—A shipment of 61 steers from the ranch of the Prince of Wales, attracted much attention at the border recently. They were of the Shorthorn and Hereford breed and were the first beef cattle ever shipped from the famous "E.P." ranch to the U.S. market. The unit being no respecter of persons, the U.S. duty paid on the shipment was over \$1,500. Another valuable shipment for Chicago the same day was 170 head shipped from Lundbreck, Alta., by A. E. Cross, the animals being valued at \$75 per head.

Grain Boat Sinks

S.S. Glenorchy, Carrying Grain, Goes Down in Twenty Fathoms of Water

Winnipeg.—The grain carrier S.S. Glenorchy, bound from Port Arthur, Ontario, to Port Colborne, sank in twenty fathoms of water near Harbor Beach, on Lake Huron, following a collision with the coal boat Leonard B. Miller, according to advices received here.

The Glenorchy, owned by the Great Lakes Transportation Company, with Captain F. Burke in command, was carrying a full cargo of wheat valued at \$320,000, and property of the Canadian Wheat Producers, Limited.

Manitoba's Dog Derby

The Pas, Man.—Manitoba's eighth annual 200-mile non-stop dog derby, which attracts international attention and brings many visitors to the north country's winter carnival, will be run on February 3 and 4 next. This is a month earlier than in former years. It is understood the Canadian National Railways will be represented by a fast team in the race.

Abandon Rescue Trip

Nome, Alaska.—The cutter, Mojave, of the U.S. Coast Guard, which attempted to penetrate the Arctic ocean to rescue four men from the gasoline schooner Silver Wave, which was carried away locked in ice has turned back, according to word received here.

Want Aerodrome Built

Rio de Janeiro.—The Jornal do Brazil suggests that the government build an aerodrome at Pernambuco with a view of attracting the United States to continue its proposed aerial mail service between Key West and Central American ports to Brazil.

Dine Canadian Nobles

Paris.—At a dinner given in honor of Senator Raoul Dandane and other Canadian nobles by the French-American Society, Senator Dandane, gave assurance of the development of Anglo-French admiration and friendship for France.

Will Pay Debt To Dominion

London.—The total liability of the Belgian Government to Canada, \$2,250,000, will be paid to the Dominion two months from now, so the Belgian ambassador to Britain has informed the Canadian Government.

W. N. U. 1549

Preparing For Lively Session At Ottawa

Ottawa.—When Premier King returns from the west early this month, preparations will be made for summoning of parliament in January. From all indications the session will be a bitter one, especially as it may be followed by a general election in the fall. A number of highly contentious questions will be before parliament, among them the situation arising from the recent ruling of the railway commission in the Crown's Nest Pass sales case, and the government's scheme for limiting the powers of the senate.

Peter Veregin Killed

Explosion On Train Kills Doukhobor Leader and Seven Other People

Nelson, B.C.—Eight are dead and 12 are injured and confined to the Grand Forks and Nelson hospitals, as a result of an explosion on board a day coach on the Kettle Valley G.P.R. train. John MacKie, member of the Provincial Legislature for Grand Forks, is dead; Peter Veregin, leader of Doukhobor colonies in Canada, is dead, as is also Harry Bishop, commercial traveller for Swift Canadian Co., of this city.

The death list in the disaster rises to eight with the reporting by the P.R. of Murphy who presided at Grand Forks, a Doukhobor young woman said to be Miss Mary Stroloff, of Nelson, and an unidentified Hindu. The inquest at Grand Forks is in session on the bodies of John MacKie and Peter Veregin.

Declares Police

Grand Jury Finds Conditions Far From Satisfactory

Vancouver.—In a presentation to Mr. Justice Murphy who presided at the Criminal Assize Court here, the grand jury declared the most defective system of both the Vancouver and the provincial police and the secret service branch of the Royal Canadian Mounted Police to be wrong and badly in need of re-organization.

The political choice of a crown prosecutor, the report declared to be a weak link in the system of justice.

The grand jury recommends that the chief inspector of the city detective force be honorably superannuated.

Dealing with the drug traffic, the report claimed that the peddling of contraband narcotics to addicts is not on the wane or in any way becoming less.

Not Producing Farmers

Ottawa.—Rural schools were not producing the type of citizens who desire to stay on the land, but rather they encouraged the average boy and girl to enter into professions, declared Mrs. H. M. Atken, of Boston, Ontario, at the opening session of the tenth annual convention of the Women's Institution of Eastern Ontario here.

Argentine Aviator Abandons Flight Tokyo.—The Argentine aviator, Zanni, who has reached Japan after starting from Amsterdam on an eastward flight around the world, has decided to abandon his flight here for the present, because of difficulty in obtaining pilots to guard his intended flight to Alaska.

\$5,000,000 For Relief

Tokyo.—The United States has contributed a total of \$5,000,000 for earthquake relief. A check for \$500,000, the latest contribution, has been delivered.

Baldwin Will Keep Promise

London.—"I am going to keep my promise to the Dominions," declared Stanley Baldwin, in a speech at York, "but that will be no infringement on free trade."

Will Revise Civil Service Salaries

Those Receiving \$2,400 Or Less Expect Larger Amounts

Ottawa.—All civil service salaries of \$2,400 and less, a year ago, are to undergo revision. Exception to being made of course to postal and customs and excise salaries of \$3,000 and under which have been revised during the summer.

The civil service commission of Ottawa, whose members constitute the main body of those affected by the revision, asks for salary increases for all classes, although it is unlikely that their request will be so broadly met.

Authority for this salary revision was given by order-in-council before the postal and customs revision. The reason for the \$2,400 limit was said to be the fact that the bonus stopped at the \$2,400 mark and revision was supposed to atone for the bonus which in turn, had originally been designed to offset the abnormal cost of living.

CANADIANS WIN IN ELECTIONS IN MOTHER COUNTRY

London.—A turn-over in the British elections notable from the Canadian point of view is the return to parliament of Sir Hamar Greenwood, formerly of Whitby, Ontario, and perhaps the best known Canadian in British politics.

He was elected in East Walthamstow, in a three cornered fight, by a majority of 3,066 over his runner-up, J. G. Dale, Labor. Sir Hamar was defeated in 1922 and 1923 by a Unionist candidate in three contested fights when he ran on a Liberal ticket. He entered the present contest as an "anti-Socialist and constitutionalist" and was not opposed by a Conservative.

A. W. Haycock, former Canadian, and Labor member for Salford West was defeated by the Conservative candidate, F. W. Astbury. Mr. Haycock was in Canada when the election date was set. He is the son of J. I. Haycock, who was prominent a generation ago as Ontario's lone "patron of industry."

Lieut.-Col. A. Macdonnell, who received the Dartford division of Kent to the Conservative column, was a former resident of Vancouver, B.C., his vote totalling 20,108 against 19,753 for the former Labor member for that constituency, J. E. Mills.

Col. W. Grant Mordey, well known Canadian, retained his seat for the Bradford and Chelmsford division of Middlesex with a slightly reduced majority over his nearest opponent, a Labor man.

Judge Fined Himself

Hamilton Magistrate Pays \$500 For Breaking Traffic Law

Hamilton, Ont.—The name of Frederick Jelfs on the police register confronted Magistrate George Frederick Jelfs in the police court. The offence charged up against the name was that of cutting a corner too closely with an automobile. The magistrate looked himself in the face and told himself he was fined \$5.

He explained after court that some member of his family was driving the automobile. "I've been busy fixing everyone who breaks city-by-laws," he said, "so there was nothing to do but fine myself."

Stamp Out Bootlegging

Ottawa.—The Citizen intimates that part of the Ontario Government's scheme for stamping out bootlegging in view of the favorable prohibition vote, will involve the placing of guards on the interprovincial bridges between here and Hull, Que., who would operate similar to customs officers at border points.

Appeal Is Successful

N. W. ROWELL, K.C., counsel for the Toronto Railway Company, which has made a big "win" before the privy council in its appeal on the arbitrator's award.

Another Bank Merger

Reported That Molsons Bank To Be Taken Over By Bank Of Montreal

Montreal.—The last of Canada's "family" banks is to disappear in the taking over of the Molsons Bank by the Bank of Montreal, announced in an official statement here. The Molsons Bank, founded in Montreal over 70 years ago, has been in the hands of the commercial and financial family group of that name since then.

The absorption of the Molsons Bank by the Bank of Montreal is, of course, subject to ratification by shareholders of both institutions, but there will not likely be any difficulty in securing it. The acting minister of finance, Hon. J. A. Robb, has approved the transaction.

An Interesting Discovery

Slender Steel Saws Found In Shoes Of Bandits Who Were Executed

Montreal.—When Giuseppe Serafini, youngest of the four executed Hochelaga Bank bandits, hanged here recently, walked to the scaffold, he carried in the sole of his left shoe, three Bank steel saws. This was brought to light when the Italian's footwear was examined after his body had been cut down. Although the origin of the saws has not yet been ascertained, it is thought that, before long, the persons who passed them to the condemned man would be exposed.

Serafini was the man, who, in some unexplained manner, escaped from his death cell and reached the prison yard before being caught.

Advance In Exports

Canada Sending More Butter and Salmon to Britain

Ottawa.—In the trade figures just issued by the Dominion Bureau of Statistics, notable advances in the exportation to Great Britain of Canadian butter and canned salmon are shown. During the past 12 months, 9,169,907 pounds of butter have gone to Great Britain as compared with 8,732,248 pounds during the preceding 12 months. In the 12 months ended September, canned salmon valued at \$4,611,125 went to Great Britain, while during the same period last year the salmon shipments were valued at slightly more than two million dollars.

Canadian Killed By Mexicans

New York.—C. D. Hodson, Canadian manager of the Arroyo Mine of the Massey Copper Co., of Zacatecas, was killed by bandits who entered his home and shot him to death, according to a dispatch from Mexico City to the New York Evening World.

The dispatch adds that the United States ambassador has made the "customary representations" on behalf of Great Britain.

Miss Margaret Bondfield Suffers Political Defeat

London.—Miss Margaret Bondfield, parliamentary secretary for labor, was defeated for Northampton. Miss Bondfield, whose record in parliament is considered noteworthy, was defeated by less than a thousand votes by her Conservative opponent, Sir Arthur Holland. The polling, 15,023; Miss Bondfield, Labor, 15,023; J. Mansfield, Liberal, 9,419. Miss Bondfield was in Canada on an immigration mission for the British Government at the time of dissolution of parliament, and hastened home a few days later.

Will Supervise All Banks

C. W. Tompkins of Montreal Has Been Given Wide Powers

Ottawa.—C. W. Tompkins, of Montreal, has been appointed government supervisor of banking, and has entered upon his duties. The position was created at the last session and the act came into force in October.

Under the general Bank Act shareholders and directors are appointed from a list approved by the department, and their reports go not only to the shareholders, but regularly to the directors. They will also be sent here now to the chief inspector, who, in addition to checking them, may also make any investigation which he considers necessary. The powers conferred are rather extensive.

Mr. Tompkins is a native of New Brunswick, where he had his initial training. He afterwards went to Vancouver and for some years has been one of the executives of the Royal Bank.

CONSTRUCTION OF BRANCH LINES IS GUARANTEED

Winnipeg.—The Canadian National Railways management, in co-operation with the Saskatchewan Government, has devised a plan whereby it will be possible to proceed with the construction of the Turfville-Halford branch line near Prince Albert, according to an announcement by Winnipeg officials of the Canadian National Railways.

This branch line was included among those killed by the Senate last session. The money to be used is commonly known as the Canadian Northern Branch Line Trust Fund, which has not been used for many years.

Sir Henry Thornton, it is stated, has authorized immediate commencement of the work, and the 21 miles are to be completed this fall. The extension will carry the line through the Midnight Lake, Birch Lake and Gislign districts.

Fishing Vessel Burned

All Members of the Azores Crew Were Saved

Prince Rupert.—The fishing vessel Azores, commanded by Captain W. Edwards, was burned to the water's edge off the Queen Charlotte Islands, according to a wireless message received here. All of the members of the crew were saved.

The Azores was built in Vancouver. It was originally intended for use on a prospecting trip to South America, but the project was, later, abandoned.

Two Stowaways Found Dead

Montreal.—Two stowaways, one Polish and the other Czechoslovakian, were found dead in the coal bunkers of the liner Milla at the local port. Investigators believe the men succumbed to coal fumes.

According to papers found in their pockets, they were W. E. Kolup, aged 35, and Marie Hodner, aged 35.

DANGER OF WAR OVER IRAK HAS BEEN AVERTED

Brussels.—The dispute between Great Britain and Turkey, concerning the status quo of the frontier between Turkey and Mosul, was settled by the Council of the League of Nations, which unanimously adopted a resolution fixing a provisional frontier pending the settlement later of the question of the sovereignty of Mosul.

An imperial commission of three men will shortly proceed to the Mosul district with the purpose of making a report to the council, which will serve as a basis for a later settlement of the sovereignty of Mosul.

By the terms of the resolution, which the council adopted, any British or Turkish troops found on the wrong side of the new line are to be evacuated by November 15. Thus all danger of war in Iraq or Mesopotamia seemingly has been averted.

Wants Australia To Amend Constitution

Labor Conference Objects to Description For Overseas Service

Melbourne.—The Inter-labor conference here, after rejecting a motion that Australia should not be committed to military action under any circumstances without the approval of parliament, except in cases of emergency, and also rejecting an amendment that Australia should, under no circumstances, be committed to military action except in defence of Australian territory on Australian soil, agreed to a resolution that the constitution should be amended so as to provide that no Australian should be conscripted for military service overseas.

Rural Nursing Methods Praised

Saskatchewan's System Held Up As Model At Eastern Convention

Ottawa.—The greatest need in rural Canada was a nursing service similar to the one in force in Saskatchewan known as "nursing housekeepers," declared Mrs. Calvin Blair, of Billings, Idaho, at a session of the Women's Institute of Eastern Ontario, holding its tenth annual convention here.

Mrs. Blair said the need of a nursing service obtainable within a few hours was great. The nursing housekeepers of Saskatchewan, she pointed out, received a course of training in one year.

Police Exonerated For Killing Swede

R.C.M.P. Constables Released After Model At Eastern Convention

Winnipeg, Man.—After deliberating ten minutes, a coroner's jury exonerated Constables J. H. Gilbert and F. G. Lepper, of the Royal Canadian Mounted Police, for the shooting of John Pearson, a Swedish laborer, who was killed during a running gun-battle with the police at Emerson, Man. The man had escaped from the custody of immigration authorities, after having been arrested for illegal entry into Canada. The verdict was a "not guilty" and the jury recommended that the constables be released.

Women Candidates Elected

London.—Women fared rather badly in the constituencies making their declarations on election night in Great Britain. To be sure, the "invincible" Lady Astor added another victory to her laurels as candidate for the Sutton division of Plymouth, which she has represented in successive parliaments.

In the early returns Miss E. Wilkinson, the Labor candidate for Middlesbrough East, was the only woman among the elected to keep Lady Astor company.

Memorites Purchase Land

Rush Lake.—The Russian Memorites who rented 1,000 acres of land from the Paree Ranch last year, have bought the land at a public sale. The new arrivals have prospered in their year on the old ranch pastures and after harvesting one crop are satisfied with the prospects. They claim to be able to pay the purchase price off in a very few years, but the obtained terms which will permit them to extend the time should there be difficulties through crop failures.

Willard's Farm Sold For \$101,650

Tokyo, Kan.—Jesse Willard's 674-acre farm near Here was sold at a public auction by R. F. Hodgins, of Tokpeka, for \$101,650. The former heavy weight boxing champion left the farm two years ago, establishing his home in California.

SASKATCHEWAN WEEKLY NEWSPAPER MEN IN CONVENTION

Local and General Items

Remember to wear your Poppy to the Memorial Services.

Mrs. George Dixon left by Thursday night's train to visit in Lethbridge and Calgary.

A. Brunetto has moved his grocery stock into the brick store on Main Street, south of the C.P.R.

The Vets' Club are moving into the Brunetto premises, next door east of The Enterprise, this week.

The Crows' Nest Pass Motors recently unloaded several carloads of the big Studebaker Supers.

A meeting of the Ladies' Curling Club will be held at the Greenhill Hotel on Tuesday afternoon next, at 3 o'clock.

Mr. and Mrs. A. B. Steves, of Fernie, are the guests this week of Mr. and Mrs. D. F. Fleming.

Thomas Evans and family have moved back to Blairmore, after an absence of several years.

Rev. Father McCormick returned to Coleman Saturday morning from an extended visit to his old home in Alexandria, Ontario.

Blairmore Oddfellows will hold their annual ball in the opera house on the night of Monday, November 17th.

Dr. Harry Groff, the new medical referee appointed under the Workmen's Compensation Board, was in town yesterday from Edmonton.

The many friends of Mayor Henderson, of Fernie, will regret to learn that he has been very seriously ill during the past week or more.

Paul Potapoff, general secretary and treasurer of the Cowley Dookhbor community, is spoken of as likely successor to Peter Vergein.

A hair-dressers' convention in Japan has addressed reports at the famous Gomen Shrine to persuade Japanese women not to have their hair bobbed.

D. A. Howe had the misfortune, on Friday last, to get his foot caught in a bullwheel on the trolley. The foot was severely lacerated and will no doubt keep its owner off work for some time.

Messrs W. H. Chappell, L. L. Morgan and George Cruickshanks returned from Calgary Sunday, where they had been attending the annual meeting of the Alberta Amateur Hockey Association.

The convention of the teachers of the Macleod inspectorate takes place here tomorrow. A grand banquet at the Cosmopolitan hotel in the evening and a dance in the opera house at night forms part of the programme.

Melanos Thanos, who was seriously injured in an auto wreck near Cranbrook a few weeks ago, is progressing favorably in the Coleman hospital. It will be some time before Mr. Thanos will be able to return to his duties.

The U.S.S. Washington, only partially completed at a cost of more than \$20,000,000, will be sunk during a drill practice off Virginia Capes in December. The destruction of the ship is necessary under the terms of the Disarmament Conference.

Announcement has been made of the engagement of Mr. Clarence P. Reddick to Miss Catherine Gibeau, youngest daughter of Mr. and Mrs. H. Gibeau, the wedding to take place on November 17th. Mr. Reddick is one of the stars of Blairmore's senior hockey team.

Remember those who paid the supreme sacrifice by wearing a Poppy.

TEA AND SALE

The Ladies' Aid of the Union church will hold a Tea and Sale of Needle Work, Home Cooking, Canned Fruit, Pickles, etc., on Wednesday, November 13th, from 2:30 to 6 p.m., at the home of Mrs. J. E. Upton. Proceeds in aid of the church general fund.

Miss E. M. Fulton was a week end visitor to Calgary.

Help the disabled soldiers by buying a Poppy, as the poppies are made by them.

Thomas Longworth has resigned the position of advisory commissioner at Lethbridge.

Lethbridge city council hope to spend \$25,000 in graveling streets next year.

Watts Goodwin has been appointed postmaster at Bellevue and assumes the position shortly.

Messrs. Hynes and Dube have installed one of the most modern loud-speaking radiophones.

At the recent annual meeting of the provincial I.O.D.E., Mrs. L. H. Putnam, of Blairmore, was elected a councillor.

Mr. G. G. Coote, member for Macleod riding in the Ottawa house, has declined the offer of a position on the grain standards board.

The Annual General Meeting of the Curling Club will be held at the Greenhill Hotel on Wednesday next, November 12th, at 8 p.m. All members and intending members are requested to attend.

The annual meeting of the shareholders of the Bellevue Arena will be held in the Oddfellows' hall, Bellevue, on Friday, November 14th, at 8 p.m.

A special Armistice service will be held in the United church at Pincher Creek on Wednesday next, November 12th, at 7:30 p.m., the speaker being Rev. J. Olivier, of Bellevue.

Alberta now has more than 120 bee keepers, according to lists which have been obtained by the Department of Agriculture. Compilation of statistics as to the amount of honey produced is now proceeding.

Jack McCoubrey, grand organizer for the Benevolent and Protective Order of Elks for Canada and Newfoundland, is in Blairmore at present for the purpose of organizing a lodge here. Jack is already hopeful of forming one of the strongest Elk lodges in the province right here. He says the motto of the organization is: "To make life sweeter, men better and the world happier." Already over sixty applications have been received.

The annual meeting of the Coleman Hockey Club was held in the Coleman council chambers on Friday evening last, when a large gathering of hockey enthusiasts attended. The treasurer's report was accepted, showing a slight deficit for last season. The following officers were elected: President, J. Hulme; vice-president, George Pattinson; secretary-treasurer, W. Purvis; executive, J. Scott, J. McDonald, J. Cox and A. Cornett; manager of team, Mr. William Wright.

Mrs. Wilson, of Edmonton, Worthy Grand Matron of the O.E.S., paid a visit to Vimy Chapter in her official capacity on Thursday evening last. There was a large turnout of members to welcome her and quite a number of visitors from Coleman and other points. During the evening degree work was exemplified, which brought forth words of commendation from Mrs. Wilson. At the close a splendid banquet was served and a social evening was spent.

The Blairmore Enterprise has the best selection of Christmas and personal greeting cards ever brought to this district, and they are popularly priced for those who heretofore have felt that such cards were too expensive. Call in and see this line and leave your order, so as to ensure your requirements to be sent to friends near and far. We can furnish you a better card, printed in our own office, with greeting of your own choice, at less cost than any medium-priced stock card on the market.

DIED

At 521 State Street, Blairmore, on Tuesday, November 4th, 1924, Catherine Bevan (late of Swansea, South Wales) the beloved mother of George, Will and Jack, aged 78 years and 11 months. (Calgary and Vancouver papers please copy).

MEMORIAL SERVICES

Memorial Services will be held on Monday, November 10th, at 2 p.m. Veterans, Mayor and Council, I.O.D.E., School Children and Citizens will meet at the school grounds, where the services will be held, if weather permits, otherwise at the opera house.

The ceremonies will commence with "O Canada," followed by addresses from the Mayor, the Acting Regent of the I.O.D.E., and the Clergy, and will close with "God Save The King."

Do not forget to buy your Poppies for Armistice Day.
